Welcome page

Register

The screenshot shows the 'Register' page of the AgriCultureWeb application. The navigation bar is identical to the welcome page. The main content area is titled 'Register' with the subtitle 'Create a new account.' Below this are three input fields for 'Email', 'Password', and 'Confirm Password', followed by a blue 'Register' button. To the right, under the heading 'Use another service to register.', there is a message: 'There are no external authentication services configured. See this [article about setting up this ASP.NET application to support logging in via external services.](#)' At the bottom of the page, a footer contains the text '© 2024 - AgriCultureWeb - Privacy'.
